#### INSTALLATION AND OPERATION INSTRUCTIONS

1. Select a good visible spot in your community or park where you want to install the Poly **DOGIPOT®** Trash Receptacle.
2. **Insert the mounting post (2" x 2" x 4') approx. 14" into an 18" deep by 8" diameter hole filled with a 40 lb. bag of "ready to use" concrete mix.** To stabilize the post while cementing, place a rod, bolt or other device through the two bottom holes, prior to inserting into the ground and cementing. Level the post in a straight vertical position and let concrete dry for at least 12 hours.
3. Install the Poly **DOGIPOT®** Trash Receptacle through the pre-drilled holes in the back wall of the receptacle and through the square post with the remaining bolts, washers and locknuts. **ATTACH THE LID TO THE WASTE RECEPTACLE PRIOR TO MOUNTING.** Use the 2" fender washers for installation on the inside of the receptacle. The trash receptacle lid will open to a pre-determined angle to prevent it from being over extended. The receptacle lid will hit the post when it is fully opened.
4. Insert one of the enclosed OXO-BIODEGRADABLE **DOGIPOT®** Liner Trash Bags into the trash receptacle, folding it over the edge of the receptacle and close the trash receptacle lid.
